Student Learning

Student Learning Summary

Students at Adams Junior High performed well on state assessments in reading, math, writing, science and social studies.

An analysis of the performance data for Adams Junior High, shows that we need to increase the number of students who perform in the meets expectations and masters expectations performance categories. Specific areas of growth include 6th grade reading and 7th grade mathematics. We need to continue our focus on increasing the performance of our special education and ELL students.

Our math assessment data indicates that we need to increase the rigor and depth of knowledge (DOK) for our students in math as well as our differentiation in instructional planning and instructional delivery for students in grades 6-8 to improve our meets/masters performance. Analysis of special populations data indicates that we need to improve the differentiation of instruction in the reading, writing and math classrooms for our special populations at all levels. Differentiation in instructional planning and delivery is necessary for all Adams JH students.
