

Do you know the difference between a swim lesson and learning to swim?

Join KATY Aquatics to find out!

KATY Aquatics teaches the nationally recognized SwimAmerica program using a 10 step station-to-station progression method based on swimming technique, stroke mechanics and continued skills improvement.

SwimAmerica students are directed towards specific goals in each station and immediately rewarded for successful completion of those goals.

We offer:

- SwimAmerica classes for ages 3 and up
- Small instructor / student ratio
- Special needs classes for all ages
- Adult swim classes
- Water safety skills
- Fun and fitness for everyone!

Please visit our website and click on "Learn to Swim" for more information regarding class times and how to register.
