

# General Project Information

## Athletic Surface Replacements

Project: Athletic surface replacements

Project Description: Replacement of turf and tennis court surfaces.

Project Priority: 1

### Background & Justification:

- Turf fields
  - Trip hazard/safety issue for students. High school campuses experience greater use/volume which is why they are priority 1. Replacement is recommended (on average) every 7 years.
  - Fields have been prioritized by use and G Max testing.
  - G Max testing measures compaction, shock and absorption.
- Roll out
  - 2018 - Katy and Cinco Ranch High Schools
  - 2019 - Morton Ranch and Taylor High Schools
  - 2020 - Seven Lakes and Mayde Creek High Schools
- Tennis courts
  - Trip hazard/safety issue for students
  - Recommended replacement is every 7 years (average)
