

General Project Information

High School #9

Project: New High School in LUZ 73C

Project Description: Prototype high school designed for 3,000 students in LUZ 73C, Cross Creek Ranch. This facility will also include a District natatorium with seating for 1,200 for district and regional swim events. Funding for an associated agricultural barn at Gerald D. Young Agricultural Facility will also be included.

Project Priority: 1

Background & Justification: Growth in the southwest quadrant of the District continues on an annual basis. Construction of this facility will provide relief to existing campuses that currently house students in surrounding attendance boundaries.
