

# General Project Information

## Property Acquisition

Project: Property Acquisition

Project Description: In anticipation of a 2020 Bond, in order to open schools per the current roll out, the following need to be purchased: three elementary, one junior high, and one high school sites.

Project Priority: 1

Background & Justification: Required to enable the acquisition of property necessary for future schools and support facilities including specific parcels of property currently in negotiations. Recognizing the rapid development occurring within the District, it is important to acquire available property now in required locations for future school district facilities. The budget identified is comparable in proportion to final allocated property acquisition budgets of previous bond authorizations.
