

General Project Information

Elevator Refurbishments

Project: Elevator Refurbishments

Project Description: Elevator refurbishment at THS (2 elevators), MCHS (1 elevator) and CRHS (2 elevators).

Project Priority: 1

Background & Justification: The identified five (5) elevators are original to the building and have exceeded their life cycle. The elevators are used daily by the staff and students in the facilities and require frequent maintenance and servicing to keep operable. When the elevators are refurbished, they will be brought up to current fire code requirements and receive the latest safety upgrades.
