

# General Project Information

## **Emergency Generator & Fire Alarm Replacements**

**Project:** Emergency Generator & Fire Alarm Replacement

**Project Description:** Replacement of the emergency generator, fire alarm, public address and clock systems at the campuses identified.

Campuses identified for systems replacement: RAE, PME, JWE, MMJH, MRJH, RKE, CRHS, CM, West Maint., West Daycare and West Trans.

**Project Priority:** 1

**Background & Justification:** The systems at the identified campuses have exceeded their individual life cycle. The fire alarm and P/A systems are no longer supported by the manufacturer and parts are difficult to obtain. They require frequent maintenance and servicing to remain operable. The systems will be upgraded to the current life safety and fire codes and the new generators will support the kitchen freezers and coolers as well as critical life safety areas of the facility.
