Would you rather live in a house shaped like a circle or a triangle?

A circle for sure! I don't like rooms with weird angles. I won't even put my furniture on an angle in a square room!

Would you rather have a magic carpet that flies or a see-through submarine?

A magic carpet that flies. I could see more of the world that way and the depths of the ocean petrify me!!! Who knows what lives down deep in the sea.
